DISCUSSION

The above-identified application was filed on January 16, 2004. At the time the invention disclosure was reviewed by the group charged with reviewing all such disclosures on behalf of the assignee (which group includes the undersigned) a decision was made to file an application in the United States. Consideration was also given to corresponding foreign filings. It was determined that there was no present intention to file any foreign applications. Accordingly, a Nonpublication Request Under 35 U.S.C. § 122(b)(2)(B)(i) was filed contemporaneously with this application.

The docketing system of assignee provides reminders of approaching one-year anniversaries of all U.S. applications. Pursuant to standard practice, on receiving this reminder, the group which reviews invention disclosures considers again the possibility of foreign filings, taking into account the then-present circumstances. As a result of this later review of the present case, a new decision was made to file a corresponding case in the EPO. Accordingly, on January 17, 2005, an application corresponding to the present application was filed with the European Patent Office.

In accordance with 35 U.S.C. § 122(b)(2)(B)(iii) and 37 CFR § 1.213(c), a Notice of Foreign Filing and Rescission of Previous Nonpublication Request should have been filed within 45 days, on or before March 3, 2005. However, such notice or rescission was unintentionally not submitted on behalf of applicant in this case.

During a review of internal docketing information, it was noticed for the first time on April 27, 2007 that the Patent Office had not been notified of the January 17, 2005 foreign filing. The undersigned then promptly prepared the present communication and Petition for submission.

Counsel for applicant have taken steps to revise the internal docket procedures to better take into account recent changes in the Patent Office publication rules.

The undersigned counsel for applicant hereby states and represents that the delay in filing the Rescission of Previous Nonpublication Request (35 U.S.C. 122(b)(2)(B)(iii)) was unintentional, and that it is being immediately drawn to the attention of the Patent Office within days of its discovery.

If a telephone inquiry would assist in resolving this matter, please feel free to contact the undersigned at (310) 964-4615 or by facsimile at (310) 964-0941.

Respectfully submitted,

Dated: May 1, 2007
